

Outperform Your Competitors: Drive Tech-Led Growth With Facilio's Connected CMMS

a Mubadala company
FACILITIES MANAGEMENT

Break free from legacy, Switch to Scalable
Enterprise-ready CMMS Deployments

Legacy CMMS Operational Model Is Flawed

👎 Rigid & limited reporting

CMMS Today

Maintenance
Asset Repo
Work orders

👎 Requires IT support for any integration & configuration

👎 Limited automation of day-to-day operations

👎 Rigid and complex user interface

Stagnant Business Growth: The Lasting Scars Of Incumbent CMMS

It Breeds Inefficiency In Day-To-Day Operations

- **Scattered financials** hinder real-time P&L analysis
- **Fragmented communication** leads to overlooked customer issues
- **Unorganized audit schedules** increase the risk of non-compliance
- **Lack of operational insights** leads to inefficient O&M processes
- **Lost operational autonomy** due to disjointed point solutions

Restricts FM Business Growth And Expansion

- **Losing RFP bids** due to inadequate technology
- **More than 1 year for CMMS delivery** to new clients
- **High customer churn** due to communication gaps and missed SLAs
- **Stalled business growth** from a lack of actionable insights.
- **High operational costs** due to unorganized workforce allocation

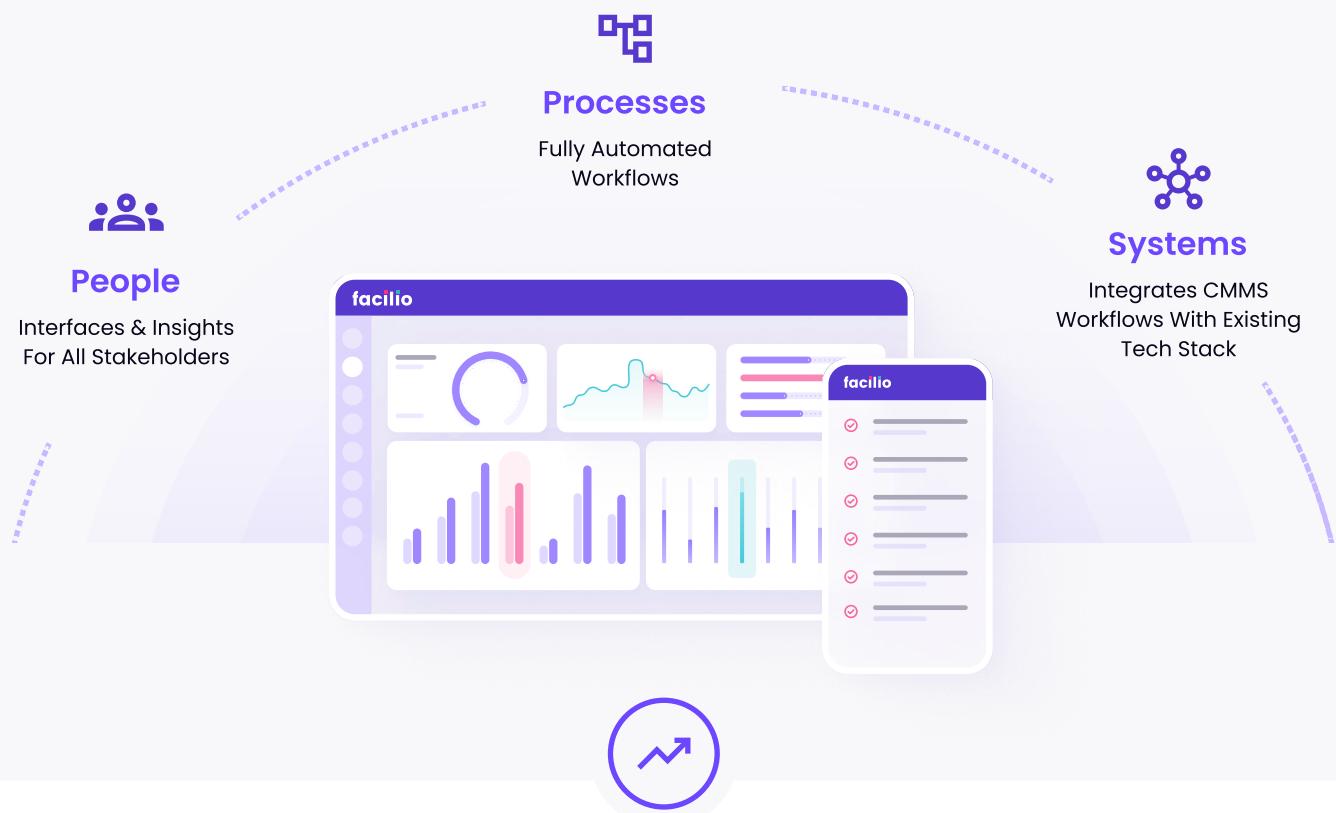

For Your Team

For Your Business

Go Beyond Legacy Systems: Adaptable, Self-Serve Platform For Modern FMs

Elevating Your Operational Capabilities

- Centralize Operations:** Manage all facilities and operations from a single platform
- Optimize cost:** Track expenses and stay within budget. Identify cost-saving opportunities
- 360 Ops Visibility:** Track tickets raised and resolved to boost operational efficiency and service response times.
- Improve SLA adherence:** Balance proactive and reactive maintenance to optimise resources and reduce downtime.
- Ensure 100% Compliance:** Maintain regulatory compliance with automated reporting and HSE management.
- Keep vendors accountable:** Overcome vendor performance issues by monitoring SLA adherence, ensuring high standards and reliability.

Driving Growth For Your Business

- Accelerate Deployment:** Templatize onboarding workflows for quick ROI
- Win against competition:** Enable IoT and data analytics for elevated services
- Cash flow visibility:** Track financials & payments across clients; Gain real-time visibility into opex
- Scalable platform infra:** Custom modules to add new service lines without coding / IT efforts
- Real-time Ops & Growth Insights:** Eliminate manual tracking of KPIs
- Client retention / satisfaction:** Enhance engagement with transparent reporting and self-service portals.

Everything Your Legacy CMMS Features And Much, Much More—Only More Simplified

Why Leading FM Companies Bet On Connected Operations Platform?

97% SLA Adherence

40% Reduced Asset Downtime

40% Enhanced Operational Visibility Across Estates

30% Reduction In Reactive Call Volumes

Nuh Gulaid
Executive Chairman, CIT

“Facilio was our choice after evaluating multiple solutions because it was **tailor-made to our requirements**.

Sumith Sukumaran
Operations Manager,
Quality Group

“Facilio helps our stakeholders make **data-led operational decisions** to deliver continuous value to our customers.”

Mark Hazelwood
Managing Director,
Q3 Services

“FMS rely on outdated tools, forcing clients to adapt to inefficient processes. Facilio provides **real-time reports and comprehensive IoT and sustainability insights** for growth.”
