

facilio

Enhance Patient Care & Gain Complete Control with Unified CMMS Platform

Facilio's Connected CMMS brings facilities, biomed, and compliance management into one real-time platform — giving you the visibility and control modern healthcare demands.

Healthcare Facility Managers

Clinical & Biomedical Engineers

Healthcare CXO's

Operation Managers

Why it's time to replace your CMMS? — Before it costs you more

Fragmented workflows, disconnected teams,
and outdated tools silently drive up your
operational cost.

Compliance prep for TJC, DME, NFPA 99, and CMS
that turns into a last-minute scramble

Manual inspections logged in Excel or paper — no
digital trail, no audit readiness

Facility and Clinical Engineering teams working in
silos, with no shared visibility or workflows

Work orders lost in inboxes, delayed by unclear
approvals, or duplicated across systems

No real-time insight into asset health, risk scoring, or
technician productivity

↑ Higher
Operational Cost

↑ Increased
Compliance Risk

↑ Increased
Unplanned Downtime

You're not managing just maintenance

You're managing risk, safety, patient comfort, and
operational excellence. And that requires more
than a digital work order system.

Introducing Facilio's Connected CMMS

A CMMS That Unifies Facilities, Biomed, and Compliance in One Single Platform

One system that brings your people, processes, and systems together — with real-time visibility, role-based workflows, and audit-ready automation across every hospital site

✓ Work Order Management

Reactive, Preventive, Corrective — fully mobile

✓ Compliance Automation

TJC, DME, NFPA 99-ready digital inspections & logs

✓ Biomedical Asset Management

Full lifecycle visibility, AEM workflows, & Risk Management

✓ Vendor & Contractor Management

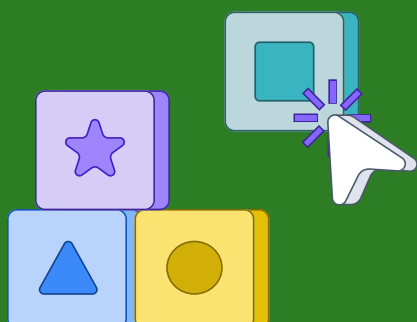

Portals, SLAs, mobile tracking, KPIs

✓ Inventory & Spare Parts

Real-time stock, restock automations, PO sync

✓ Dashboards & Reporting

Configurable BI with real-time metrics & alerts

**Modular and role-based —
deploy only what you need,
when you need it.**

Tailored Value for Each Stakeholder

Healthcare CXOs

Unify operations across sites

Reduce O&M and software costs

Gain real-time performance insights

Align asset ops with care outcomes

Facilities Management

Digitize inspections & audits

Centralize HVAC, EOC, LSC assets

Prioritize based on risk & SLAs

Eliminate manual reporting

Clinical Engineering

Automate PMs & AEM programs

Track device uptime & risk

Maintain FDA & DME-ready logs

Manage lifecycle & recalls

40%

Faster Compliance Prep.

30%+

Improvement in Asset uptime

100%

Digitized Inspections

“Facilio’s Connected CMMS gave our technicians instant visibility — enabling faster resolutions and a smooth shift from reactive to proactive maintenance for one of the of the largest chain of hospitals.”

Hanie Abdul Sathar, Director of Eurohealth Systems

Awards and Recognition

Recognized as the best Overall Facilities Management Platform of the Year in 2024

Winner of UK PropTech Awards 2023 for Best Use of Data along with Equiem

Featured as an Innovator in Verdantix's Green Quadramt: Energy Management Software 2023
